OFFICE OF  
SOLID WASTE AND EMERGENCY RESPONSE

**MEMORANDUM**

**SUBJECT:** Enforcement Release for the Reilly Tar Site,  
St. Louis Park, MN

**FROM:** Gene A. Lucero, Director *Patricia J. Cook for*  
Office of Waste Programs Enforcement

**TO:** William N. Hedeman, Jr., Director  
Office of Emergency and Remedial Response

I have determined that Reilly Tar and Chemical Corp., the responsible party at this site, is not willing to design and construct the GAC treatment plant at St. Louis Park municipal wells 10 and 15. Accordingly, I request that Superfund monies be released to fund the project.

It is extremely important to meet the city's summer water supply demands as well as the government's litigation posture, that this project be implemented and completed on as fast a schedule as possible. Equally important is the schedule of completion of the remaining RI/FS work, so a record of decision for the final remedy at the site can be developed as soon as possible.

Thank you for your attention to this matter.
